ChatGPT Validation on Medical Education for **Postgraduation**

Thank you for taking part in this validation process on ChatGPT targeted **medical experts** as the end user (e.g., physicians, medical teachers and postgraduate students). Your expertise is invaluable in helping us to determine the model's effectiveness and identify its major limitations in assisting users within Medical Education. As such is your available time, this form was prepared to be simple and swift (hopefully) towards facilitating your medical work:

📄 Here, you will face a task conducted by ChatGPT to review its results (present inside a PDF file that you may have received from the same email that links you to here), which were from prompting the model in diverse manners (prompt engineering omitted).

🌿 For demonstrative purposes, the experiments lean on the *Infective Endocarditis* (IE) disease.

📣 Please click the button below to start and read the task description carefully. Put your medical hat on, and focus on the **postgraduation** profile!

Task 1 - *IE Guidelines Congress Slide Builder*

Medical congresses provide a professional platform for exchanging groundbreaking research and insights within the healthcare community. In this task, ChatGPT will develop a 20-minute slide presentation tailored for an upcoming Portuguese medical congress on updates of the disease guidelines.

Validation Methodology
As for the previous task, please adhere to the following convention when validating ChatGPT performance throughout this task:

⚡ From **1 as "Unusable"** to **5 as "Perfect"**

Would you use ChatGPT to help in preparing a slide presentation for the upcoming Portuguese medical congress? *

	1	2	3	4	5
T1-1			●		
T1-2	●				
T1-3		●			
T1-4			●		

Did you see any outdated information, or non-factual affirmations in the ChatGPT-proposed slides you would like to report? If so, which?

No T1-4 referencia a criterios 2024 - não existem. Ultimos de 2023.

Do you have any extra observations that you want to provide? (Optional)

Na generalidade linguagem nao medica, portugues do brasil. Muito basico.~
Sugeria aqui pedir para fazer em ingles ou portugues de portugal e aumentar o nivel de complexidade da informação
